

# Financial Institution Bond

Our expanded Financial Institution Bond incorporates the SAA's Standard Form 24 with comprehensive Computer Crime, Kidnap and Ransom and other coverages specifically tailored to each institution's unique needs.

To help prevent fraud and dishonesty, internal precautions such as dual controls, separation of duties, mandatory vacation time and operational audits are good deterrents. However, every financial institution needs insurance coverage when criminals are successful in circumventing internal controls, thus causing the institution or a customer to sustain a loss.

The AmTrust Financial Institution Bond product provides the fidelity coverage required by regulators and covers other types of fraud exposures your financial institution inevitably faces while doing business in the 21st century.
