

Digital Asset Insurance

AmTrust EXEC understands the needs of the emerging Digital Asset world and the technologies that support it. We have a customer focused approach with one of the most experienced underwriting teams in the space. We focus solely on the technology and avoid the preconceived ideas of the sector.

Enhanced Definitions

of digital asset terms and exposures

Claims

In-house Claims Handling with dedicated team and reporting email address

Customizable Product

Customizable product designed for a variety of risk exposures

AmTrust's Digital Asset Insurance

AmTrust EXEC is proud to announce the release of our New Digital Asset Directors and Officers form. This language is designed for the new and evolving distributed ledger technology space, including, but not limited to, blockchain technology and crypto related risks. We have taken careful consideration of risk factors in this space to create this wording, written by underwriters and industry experts. We aim to offer the tailored coverage for your clients in this evolving space.

We have teamed with third party companies to bring a one of a kind underwriting approach, combined with one of the most experienced underwriting teams you have come to expect from AmTrust EXEC.

Coverage Highlights

- Coverages A, B and C can be considered for D&O
- Both Private and Public company risks
- Tailored wording for the Digital Asset space
- Definitions that are relevant to the sector
- Customized language for bespoke risks
- Crime and Cyber/Tech E&O risks in the Digital Asset space also considered separately.

AmTrust Digital Assets

AmTrust EXEC Underwriters review each risk individually with the ability to consider the best fit.
