

AmTrust Absence Management Services

ABOUT OUR SOLUTION

Compliant:

The laws regulating state and federal job-protected leaves are complex and ever-changing. We stay up-to-date on the regulations that matter to your business, so you can spend less time searching for answers while knowing that you'll always be compliant.

Centralized:

Our solution automates employee leave management and handles absence from beginning to end. This reduces the burden on HR and administration teams, giving organizations more time to take care of business - while we take care of their people.

Customized:

We create a comprehensive, customized absence management solution for our clients. The focus is based on what's right for your culture, employee experience and business goals.

Caring:

Going out for an unscheduled absence is no vacation for your employees. We provide the support and guidance they need to navigate a leave and ensure that they receive their benefits quickly and easily.

Clinical:

Integrated Disability Specialists and Nurse Case Managers, specialized by condition, use robust data and predictive modeling tools to work with attending physicians ensuring the soonest, safest, most supported return-to-work for employees. Program data provides utilization patterns which are used to identify high-need populations and underutilized benefit programs to increase overall population health.

There are over 500 complex and ever-changing laws regulating state and federal job-protected leave across the country.

Our expertise is a plus – we have the software, equipment and expertise to track and manage these programs. We stay up-to-date on these laws, so small business owners and HR teams can focus on their business.
