Is your business prepared to face this modern-day risk?

Your information is valuable to thieves. Businesses may be targeted because they store high-value records such as credit card numbers, social security numbers and sensitive health information. Small businesses may be more vulnerable to a data breach due to lack of necessary data security measures from internal sources (disgruntled employees, loss of laptops/phones, inadequate training, etc.) and external sources (malware/virus, phishing, keyloggers and more).

AmTrust's Cyber Liability product offers low rates and specialized coverage. With no application required for a quote for limits of \$100,000 or below, adding this important coverage is easy.
