

AmTrust Loss Control Capabilities

The goal of the AmTrust Loss Control Department is to help our policyholders effectively manage their hazards and create specific risk management solutions. From consultation services by our qualified specialists, to extensive website resources, we have the expertise and tools to help you lower risk and strengthen your business.

Comprehensive Risk Assessment

from onsite consultations to virtual surveys

Education & Training

including streaming videos by industry and hazard type

Additional Resources Available

through a Loss Control consultant or an online library

In-depth Risk Assessment

Equipped with experience and insight, our loss control consultants know what it takes to help you mitigate risk. From comprehensive loss control consultation, to walk-throughs to help identify hazards and recommend controls, we have the knowledge and skills to help protect your AmTrust insurance policies from loss.

Expert Training

Improve employee engagement and increase business success with our industry-leading training. Explore our extensive collection of streaming video training featuring content segmented by industry and by hazard type, available at amtrustfinancial.com/losscontrol. With subject matter including workplace safety, transportation safety and human resources, each complimentary subscription comes complete with training modules, leader guides, quizzes and certificates of completion.

Online Reference Center

Explore our extensive collection of resources, including sample safety programs, best practice guides and industry-leading materials for workers' compensation, commercial property protection, commercial fleet, liability exposures and more at amtrustfinancial.com/losscontrol.

Loss Analysis

Identifying trends is crucial to reducing future accidents and claims costs. AmTrust's proprietary loss analysis software offers insight into your losses by providing detailed visual representations and graphical data to spot underlying trends specific to your organization. This data can be used to implement preventative measures to help minimize risk and keep claims costs down.

Virtual Risk Advisors

Don't go it alone. Our specialists are available to answer your loss control questions, guide you to specific solutions and help with recommendations you may have received during our visit. Whatever your business or industry, our team can steer you in the right direction. Connect with us at: AskLC@amtrustgroup.com or call 888.486.7466 to get started.
